PUMP SPARE PARTS
(LIQUID HEADS)*

004168 – Kynar – 560 Pump
002025 – C-20 – 560 Pump
004170 – Kynar – 637/647 Pump
000417 – C-20 – 637 Pump
003733 – C-20 – 647 Pump
004277 – Kynar – 7220/7250 Pump

MIXERS

Coated with Kynar or Teflon

* Note that BIS has issued a CCATS determination of EAR99 for Neptune's Back Pressure Valves, but due to the interchangeability of back pressure valves and pressure relief valves, Neptune has decided to treat the Back Pressure Valves as 2B350 for internal compliance purposes. Counsel for Neptune also has had verbal communications with a BIS engineer indicating that the liquid heads are not controlled under 2B350, however, until a formal CCATS determination is obtained, Neptune will treat these as controlled.
